

# Topax DUO - Improving productivity while maintaining a superior clean performance

## Challenge

Labor shortage and increased demand is driving customer to look for uptime in their production floor. Their current cleaning program includes a 5 step cleaning with a separate cleaning and sanitising step.

## Solution

Topax Duo was trialed on site in the cutting room and tested against Ecolab's 5 step program benchmark in terms of time and performance.

## Result

- Superior foaming performance similar to existing program
- Similar effective microbial results
- Reduced time of 20 mins per clean from 1 hour to 40 mins (4 cleans a day)
- Reduced intermediate rinse step per clean

VALUE DELIVERED	
<p><b>PRODUCT QUALITY</b></p> <p>Superior microbial results achieved to benchmark program</p>	<p><b>PRODUCTIVITY</b></p> <ul style="list-style-type: none"> <li>▪ Reduced cleaning time translated to productivity time resulting in a production value of \$180k per annum for customer</li> </ul>
<p><b>WATER</b>   <b>COSTS</b></p> <p>Reduce 1 intermediate rinse step which translates into 1,200m3 water savings per annum</p>
